

Welcome to Austria

German as a foreign language

A good command of German plays a vital role in making people of all ages really feel at home in Austria.

Once you and your family speak German, making new contacts and extending your circle of friends is so easy.

Welcome to Austria

German as a foreign language!

We are so glad you have chosen to live and work in Austria! The CEF Team will be there for you whenever you need any kind of assistance concerning languages in general and the German language in particular.

You will find we take a very practical approach to teaching and helping you to learn German. Our aim is to enable you to communicate with those around you as quickly and efficiently as possible, even though the language may be totally new to you. Learning should be fun, not a chore and we will make sure the experience is enjoyable.

Manager Training

You may already have quite a good command of German, have taken a few courses or have no previous knowledge of the language whatsoever – we can adjust the programme to suit your level and requirements. No two participants are ever the same, which is why our individual coaching programme is designed exclusively for you.

In your one-to-one coaching programme you can arrange appointments to fit in with your schedule as required and decide at what speed you would like to progress. You could book one or two meetings per week, or opt for the tried-and-tested “Crash by CEF” programme with at least one week of full-time training. Either way, you will be surprised to see how quickly you progress.

In Company Training

Would you like to improve your German – or maybe even just start learning it – in a small group of up to 6 participants? No problem. During the CEF planning stage before the course we assess the level and compatibility of the participants and adjust the contents to suit your level and requirements. As always, the approach is practical, focusing on the situations you encounter in your everyday life and work in Austria.

You just tell us when, where, and for how long you would like to learn and you will soon notice the improvement in your ability to communicate.
